

**FIRE PREVENTION FORM 618
ALL-WEATHER ACCESS CERTIFICATION**

I, _____, hereby state that the road/driveway
serving _____
Address/Location City
beginning at _____
and terminating at _____
_____ is All-Weather.

Note: Required turnarounds and turnouts must also meet all-weather requirements.

This statement is made with the knowledge that all-weather is defined as a road/driveway that is capable of carrying a H-20 (20 ton) loading or equivalent, during and after a 10-year storm with no significant damage to the road/driveway.

This statement is also made with the assumption that maintenance will be performed on the road/driveway to preserve the surface, base, sub-base and drainage facilities in the current conditions.
